

Northern Technical University
Technical Institute/Mosul
Department of Electrical Technologies

"Activities (Courses, Workshops, Seminars, seminars, etc.)
For the academic year 2022-2023"

No.	Activity Title	Administrative Order
1.	Overhead Transmission Lines Insulators Seminar	2023\3\22
2.	Panel Discussion microscope	2023\3\9
3.	Employees from the Electricity Department carried out a planting campaign	2023\2\28
4.	Program usage cycle Microsoft Office	2023\2\27
5.	Seminar on the sense of responsibility and its impact on the formation of personality	2023\2\26
6.	Bohr's theory course explains the atomic spectra of the hydrogen atom	2023\1\31
7.	Drug workshop means to destroy communities	2023\2\5
8.	DC Machinery Course	2023\1\26
9.	University Staff Development Course	2023\6\26
10.	Electric Power Generation and Transmission Course	2023\6\12
11.	An initial course in the program Excel 2007	2023\4\26
12.	An initial course in the program Word 2007	2023\3\26
13.	Three-phase motor winding cycle	2023\2\28
14.	Practical novice Spatial characterization of satellite images	2023\2\6
15.	Basic Principles of High Voltage DC Power Transmission Workshop HVDC	2023\2\6
16.	DC Machinery Course	2023\1\26
17.	Industrial control and selection cycle of grounding systems	2023\1\18
18.	Workshop to introduce students to the dangers of drugs	2023\12\13
19.	Optometric Elements Seminar	2022\11\7
20.	Workshop on the mechanism of filling out the evaluation form for technicians and ministerial contracts for the year 2022	2022\11\21
21.	Scientific novelty The effects of solar energy on the stability of the voltages of the electrical system	2022\11\20
22.	Seminar statcom performance enhancement based on hybrid supply solar panels and batteries	2022\11\1
23.	Programmable Logic Controllers course and their applications	2022\10\12
24.	Novic Scientific Solar Laboratory Board Design	2022\9\14
