Tests and reports	+ Practical theoretical	Data that must be provided to describe the invention	Knowledge and practical application	3	11 12
Tests and reports	+ Practical theoretical	Registering a patent with government agencies	Knowledge and practical application	3	13 14
Tests and reports	+ Practical theoretical	Duties and tasks of patent examination offices to verify the new invention	Knowledge and practical application	3	15

subject : - The study of law. Study stage: - First					
Evaluation method	Teaching method	Subject name	Learning Outcomes required	hours	the week
Tests and reports	+ Practical theoretical	Defining the meaning of law and the relationship between it and the rules of religion, the rules of morals, and the rules of justice	Knowledge and practical application	3	1
Tests and reports	+ Practical theoretical	Defining the meaning of law and the relationship between it and the rules of religion, the rules of morals, and the rules of justice	Knowledge and practical application	3	2
Tests and reports	+ Practical theoretical	Defining the meaning of law and the relationship between it and the rules of religion, the rules of morals, and the rules of justice	Knowledge and practical application	3	3
Tests and reports	+ Practical theoretical	Definition of the legal rule and its characteristics	Knowledge and practical application	3	4
Tests and reports	+ Practical theoretical	Definition of the legal rule and its characteristics	Knowledge and practical application	3	5 6
Tests and reports	+ Practical theoretical	Sections of law and the distinction between public and private law	Knowledge and practical application	3	7 8
Tests and reports	+ Practical theoretical	Branches of public law and private law and criteria for distinguishing between them	Knowledge and practical application	3	9 10 11
Tests and reports	+ Practical theoretical	Sources of law, their types, and official sources of Iraqi law	Knowledge and practical application	3	12 13
Tests and reports	+ Practical theoretical	,Definition of legislation ,its importance ,characteristics advantages, disadvantages and types	Knowledge and practical application	3	14 15
Tests and reports	+ Practical theoretical	The principles of formulating the legislative rule and the progression of legislation and oversight in its elimination	Knowledge and practical application	3	16 17
Tests and reports	+ Practical theoretical	,Custom, its pillars advantages, and disadvantages, and its	Knowledge and practical application	3	18

		types: Conventional ,custom, customary rule and proof of customary .rule			
Tests and reports	+ Practical theoretical	,Custom, its pillars advantages and disadvantages, and its types: Conventional ,custom, customary rule and proof of customary .rule	Knowledge and practical application	3	19
Tests and reports	+ Practical theoretical	Islamic law and the rules of justice as a source of law	Knowledge and practical application	3	20 21
Tests and reports	+ Practical theoretical	Unofficial (interpretive) sources of law Jurisprudence, its definition, features, and role in ancient and .modern societies ,Judiciary, its definition features, and role in ancient and modern .societies	Knowledge and practical application	3	22
Tests and reports	+ Practical theoretical	The scope of application of the law in terms of place, the principle of the ,territoriality of the law the exceptions to it, the principle of the personality of the law	Knowledge and practical application	3	23
Tests and reports	+ Practical theoretical	The scope of application of the law in terms of location, the principle of the territoriality of the ,law, the exceptions to it and the principle of the personality of the law	Knowledge and practical application	3	24
Tests and reports	+ Practical theoretical	The scope of application of the law in terms of time, the principle of non- ,retroactivity of the law and the exceptions to it	Knowledge and practical application	3	25
Tests and reports	+ Practical theoretical	The scope of application of the law in terms of time, the principle of non- ,retroactivity of the law and the exceptions to it	Knowledge and practical application	3	26
Tests and reports	+ Practical theoretical	Definition of the right and ,its types, real rights personal rights, original and accessory real rights	Knowledge and practical application	3	27
Tests and reports	+ Practical theoretical	Definition of the right and ,its types, real rights	Knowledge and practical application	3	28

		personal rights, original and accessory real rights			
Tests and reports	+ Practical theoretical	The elements of the right and its sources, the subject of the right, the legal incident, legal actions, and the legal protection of the right	Knowledge and practical application	3	29
Tests and reports	+ Practical theoretical	The pillars of the right and its sources, the subject of the right, the legal incident, legal actions, and the legal protection of the right	Knowledge and practical application	3	30

subject : - Statistics for the academic stage: - First					
Evaluation method	Teaching method	Subject name	Learning Outcomes required	hours	the week
Tests and reports	+ Practical theoretical	Basic concept of statistics principles	Knowledge and practical application	3	1
Tests and reports	+ Practical theoretical	Definition in the world of statistics	Knowledge and practical application	3	2
Tests and reports	+ Practical theoretical	Organizing and displaying statistical data	Knowledge and practical application	3	3
Tests and reports	+ Practical theoretical	Types of statistical scale	Knowledge and practical application	3	4
Tests and reports	+ Practical theoretical	Calculate the measure of dispersion and deviation	Knowledge and practical application	3	5
Tests and reports	+ Practical theoretical	Torque measurement	Knowledge and practical application	3	6
Tests and reports	+ Practical theoretical	Correlation scale	Knowledge and practical application	3	7
Tests and reports	+ Practical theoretical	Simple linear regression	Knowledge and practical application	3	8
Tests and reports	+ Practical theoretical	Sample blank and events	Knowledge and practical application	3	9
Tests and reports	+ Practical theoretical	Numerical techniques	Knowledge and practical application	3	10
Tests and reports	+ Practical theoretical	Definition and application of probability	Knowledge and practical application	3	11
Tests and reports	+ Practical theoretical	Bayes ' theorem and its application	Knowledge and practical application	3	12
Tests and reports	+ Practical theoretical	Basics of statistics	Knowledge and practical application	3	13
Tests and reports	+ Practical theoretical	Data types	Knowledge and practical application	3	14

Tests and reports	+ Practical theoretical	Real numbers are rational and irrational	Knowledge and practical application	3	15
-------------------	-------------------------	--	-------------------------------------	---	----

subject : - Computer Study stage: - First					
Evaluation method	Teaching method	Subject name	Learning Outcomes required	hours	the week
Tests and reports	+ Practical theoretical	Identifying the physical parts of the computer by displaying a ready-made program that ,explains these components disassembling an old calculator to identify its components and the devices attached to it, displaying the working method of its software components and defining them within the .system	Knowledge and practical application	3	1 2
Tests and reports	+ Practical theoretical	Running aWindows application displaying the / most important stages of / installing the application updating it, the most important versions of Windows used shutting / down the device / using the mouse / components of the Windows screen :the taskbar : icons: the method of defining and hiding them (standard and general)	Knowledge and practical application	3	3 4
Tests and reports	+ Practical theoretical	How to deal with the control / panel / desktop control features function / installing .and uninstalling programs With class exercises for each case carried out by the student anda data show for his colleagues to monitor and discuss the results Practical application on the method of :dealing with windows reducing and enlarging the / window / final closing temporary closing / moving the window / controlling the window capacity / methods	Knowledge and practical application	3	5 6

		for running applications and programs			
Tests and reports	+ Practical theoretical	How to deal with start menu items / updating and deleting start menu items adding a / submenu to the start menus / adding a new button to the start menu	Knowledge and practical application	3	7 8
Tests and reports	+ Practical theoretical	Identify the most important components of Windows / software. Windows Explorer Windows explorer icon / Window parts (computer my delete, restore and empty the) Recycle Bin	Knowledge and practical application	3	9 10

Tests and reports	+ Practical theoretical	Providing practical exercises on how to deal with / Folders and computer files A practical implementation of the most important programs associated with Windows like Notepad /Paint/ Screen : Components /Create , Drawings/handling transferring them to other software such as Office Entertainment programs Media player	Knowledge and practical application	3	11 12
-------------------	-------------------------	---	-------------------------------------	---	----------

Tests and reports	+ Practical theoretical	A practical presentation on how / to install virus processors running the processor / treatment / method An explanation of the most important effects and symptoms caused by the virus Computer crimes/theft/hackers Running Word Basic elements / of the Word window Inverting / the language / Introducing the paragraph / Merging Dividing the paragraph .selecting (shading) the text/	Knowledge and practical application	3	13 14 15
-------------------	-------------------------	--	-------------------------------------	---	----------------

Tests and reports	+ Practical theoretical	Dealing with the file services available in the application :through a practical exercise / New / Opening a stock file Close the document / Save a new document / Save an existing document / Preview before / printing / Close the document Finish Word	Knowledge and practical application	3	16 17
-------------------	-------------------------	--	-------------------------------------	---	----------

Tests and reports	+ Practical theoretical	Clipboard : cut/copy/paste/copy formatting Font: change font/font size/enlarge and reduce font Clear formatting / Change font / / color / Text highlight color / Subscript text / Superscript text / Change case / Underline style Effects / Character spacing Paragraph: Numbering / Bullets Create a bulleted list into / existing text / Cancel bullets / Indentation / Paragraph spacing / Line / spacing / Text direction / Alignment Borders and shading / Styles: Regular / No spacing / Heading 1 Heading 2 / Subtitle / Change styles / Show preview / Disable associated styles Options / Edit : Find/Move to / Replace Select	Knowledge and practical application	3	18 19
Tests and reports	+ Practical theoretical	Learn practically about the most important features of drawers Where pages: blank page / cover page / page break /Table: Insert too and/draw table convert Excel spreadsheet / Quick tables Table styles / Drawing table / borders / Illustrations : photo / clip art / prepared shapessmart art drawing / diagram / Header and footer : Header footer / page number Text: text box / decorated textword art / / Signature line / date and time object / equation / symbol	Knowledge and practical application	3	20 21
Tests and reports	+ Practical theoretical	/ Features: Themes / Colors :Fonts / Effects Margins / page size / orientation / page background : watermark - page color / page borders / Order: Position / Bring to front Send to background / Wrap text	Knowledge and practical application	3	22
Tests and reports	+ Practical theoretical	/ Table of Contents / Add Text Update Table Footnotes : Insert a footnote/Insert a comment Concluding/ footnote The bottom Next / Show notes	Knowledge and practical application	3	23 24

		References and citations: Insert a - citation / Manage sources the pattern / :Captions : Insert caption Index / Insert index / Mark entry Update index			
Tests and reports	+ Practical theoretical	Practical application on one of the previous exercise files on The method of implementing the :practical review in terms of :auditing: comments: changes - protecting the document: views Documents: Print / Read layout in mode / Full Screen / Web Layout / Outline Draft	Knowledge and practical application	3	25 26
Tests and reports	+ Practical theoretical	Showing a documentary film about the idea of the ...development of networks in - The world and its types Getting to know the institute's college network, which connects scientific departments and units to the network communication system And their types / forms of .networks / network protocols Get an idea about the relationship between networks and the global networking system (the Internet) and why this shift in the use of the global network	Knowledge and practical application	3	27 28

Tests and reports	+ Practical theoretical	Getting to know the main Internet screen / some basic Internet concepts / connecting to the Internet / opening the Internet browser / components of the Internet browsing window / browser icons / web addresses / using the browser / changing the home page / toolbars / closing the browser and disconnecting / from the Internet / history storing favorite pages / Search engines / How to search for / information on the internet Copy texts and images to any application / Download files From the Internet / Preparation for Print / Printing	Knowledge and practical application	3	29 30
-------------------	-------------------------	---	-------------------------------------	---	----------

subject : - Human rights and democracy Study stage: - First					
Evaluation method	Learning method	Subject name	Required learning outcomes	hours	the week
Tests and reports	theoretical	Human rights - their definition and objectives	Knowledge and practical application	1	1
Tests and reports	theoretical	The roots of human rights and their development in human history. Human rights in .ancient and medieval times	Knowledge and practical application	1	2
Tests and reports	theoretical	Human rights in ancient civilizations, especially the . Mesopotamian civilization	Knowledge and practical application	1	3
