- ❖ [IREX](#) supervises the training of students of the Northern Technical University in cooperation with the Ministry of Higher Education and Scientific Research.

With a distinguished presence and effective participation by our distinguished university students from various scientific specializations in the colleges and institutes of our university, the activities of the Career Preparation Academy program continue in training, qualification and professional development, which is a series of workshops and applied training courses via the Internet, launched by IREX in cooperation with the Ministry of Higher Education and Scientific Research. The axes of the above career training program focus on the following:

- 1) Developing the student's (trainee's) personal file on the LinkedIn platform.
  - 2) The concept of entrepreneurial mindset and entrepreneurial thinking.
  - 3) Career development in the digital age.
  - 4) Time and priority management.
  - 5) Teamwork and the ability to plan for career work: setting goals and looking to the future.
- In addition to the important matters that work to develop the professional competencies of students.

We wish all participating students continued success, success and excellence.

- ❖ Northern Technical University Students Scene

For the first time at the level of Iraqi universities.

A group of college students at our university have completed the [training supplementing the summer training](#), which was held at Ataturk University in Turkey, in cooperation between the Student Affairs and Registration Department and the Missions and Cultural Relations Department at our university and Ataturk University. This initiative is considered the first at the level of Iraqi universities, and the goal is to provide students with scientific and academic experience and cultural exchange. After the end of the summer training course, the participants received certificates of participation, noting that the initiative will continue for the coming years between our university and the university with which it concluded the agreement.

- ❖ A scientific visit for students of the Technical Medical Institute / Mosul to the old water project on the left side.

Under the patronage of the President of the Northern Technical University, Prof. Dr. Alia Abbas Ali Al-Attar, and under the supervision of the Dean of the Technical Medical Institute / Mosul, Assistant Professor Dr. Muhammad Fadhel Haddad, the Department of Community Health Technologies organized a scientific visit for second-stage students to the old Al-Ayser water project to enhance the practical field aspect with the theoretical aspect, accompanied by the department's scientific and practical lecturers.

The aim of the visit was to learn about the stages of water purification, in addition to being part of the practical application of the Environmental Health subject, where Ms. Nahla Sami Ibrahim, the assistant chemist, and a group of engineers explained how to conduct tests on water samples taken from the river in the laboratory of the Al-Ayser water purification project.

Then a lecture was given on water pollution and its diseases to the students and measuring the percentage of chlorine and the percentage of minerals and salts for the water prepared for homes by the department's professors.

At the end of the visit, the [teaching staff and our students](#) thanked Mr. Hussein Othman Hassan / Project Manager and the rest of the engineers for the good reception and cooperation in serving the public interest

- ❖ The Department of Electrical Power Engineering Technology at the Technical College of Engineering/Mosul organized a scientific visit for third-year students, morning and evening studies, to the [Mosul Dam/Regulatory Dam](#), to enhance side work in the engineering specialization. The academic teacher spoke to both the happiness of the scientific supervisors.

- ❖ Part of the systematic training for practical lessons for students of the Department of Anesthesia Techniques, second stage  
In the operating rooms, intensive care and recovery units for students of the Department of Anesthesia Techniques, second stage, and for morning and evening studies in the training sites in each of the following hospitals:
  1. Mosul General Hospital
  2. Al-Khansa Teaching Hospital
  - Department of Obstetrics and Gynecology
  - Department of Pediatric Surgery
  3. Al-Salam Teaching Hospital
  4. Al-Jumhuri Teaching Hospital
  5. Al-Batoul Teaching Hospital

- ❖ The President of the Northern Technical University inaugurates [a job fair](#) organized by the university in cooperation with the Dutch Spark Organization and the Riyada Organization for Administrative Leadership.

Within the series of our university's inexhaustible activities that serve the interests of its students even after their graduation, our university, under the patronage of its president, Professor Dr. Alia Abbas Ali Al-Attar, and in cooperation with the Riyada Organization for Capacity Building, the International Academy for Leadership and Development, and the Dutch Spark Organization, organized a job fair with the participation of more than 50 companies bearing the character of the public and private sectors, in the presence of the President of the University of Nineveh, a number of directors of Nineveh departments, the Assistant President of the University for Scientific Affairs, Assistant Professor Dr. Omar Rafeh Mahmoud, the deans of the Nineveh site formations, the heads of scientific departments, and a large number of graduates of our university and the universities of Nineveh Governorate. As we have known, our university is keen to provide all means to its students and graduates, praying to God for more brilliance and prosperity.
