### **Vocational Training Events (lifelong learning)**

Northern Technical University (NTU) is dedicated to advancing [lifelong learning](#) through a series of impactful Vocational Training Events. These events, conducted both locally and internationally, are meticulously designed to provide participants with unparalleled opportunities for personal and professional growth.

At Northern Technical University, we take pride in hosting a diverse range of events that cater to various fields, including Vocational Education, Engineering, Health and Medicine, Agriculture, and Business. Our commitment lies in ensuring that attendees not only gain theoretical knowledge but also acquire practical skills essential for their respective industries.

By actively engaging in these events, participants can enhance their expertise, fostering a culture of continuous learning and skill development. Our focus extends beyond conventional education, emphasizing entrepreneurship in vocational training. Through these initiatives, we empower individuals to explore their entrepreneurial potential and contribute meaningfully to their communities.

### **Northern Technical University's Riyada Initiative Workshops Inspire Youth Empowerment**

Northern Technical University is proud to present the [Riyada Initiative Workshops](#), a series of engaging programs designed to inspire and empower the youth. These workshops aim to cultivate the entrepreneurial spirit among participants, providing them with the tools and knowledge necessary to transform their ideas into actionable plans.

Through interactive sessions led by industry experts and successful entrepreneurs, attendees will explore essential topics such as business development, innovation, and leadership. The Riyada Initiative workshops not only focus on theoretical knowledge but also emphasize practical skills and real-world applications, ensuring that participants are equipped to navigate the challenges of the contemporary job market.

By fostering a culture of creativity and entrepreneurship, the [Riyada Initiative](#) seeks to empower the youth to take charge of their futures, equipping them to contribute positively to their communities and the economy. Join us at Northern Technical University and be part of a movement that is dedicated to nurturing the next generation of leaders and innovators.

### **Continuing Education Center (CEC) of Northern Technical University**

The [Continuing Education Center](#) (CEC) at Northern Technical University offers many [free training, courses, and workshops](#). These initiatives also help familiarize participants with the latest developments in various scientific journals. In addition to other [activities](#) offered by Career Development Courses [\(CDC\)](#).

### Northern Technical University continues its courses in community care

Under the esteemed patronage and guidance of Professor Dr. Alia Abbas Ali Al-Attar, the Peaceful Coexistence Unit has successfully organized an event titled "A Home Day," in collaboration with the Scientific Affairs Department at Dar Al-Dawla for Flower Care. This initiative reflects the university's commitment to serving the community.

On this special day, Dr. Maha Abdel Moneim Al-Jawady and Mrs. Enas Elias Khader curated a vibrant entertainment program for all participants. The event featured a delightful lunch and an array of homemade sweets, creating a warm and festive atmosphere for everyone. Attendees enjoyed recreational games, fostering a sense of camaraderie and joy. A highlight of the day was the celebration of the birthdays of two girls residing at Dar Al-Dawla, during which guests gathered to cut the birthday cake in the presence of university officials and supervisors.

Additionally, it is noteworthy that the Peaceful Coexistence Unit has begun offering a series of diverse courses at Dar Al-Dawla. This initiative aims to provide valuable learning experiences and support the development of the community, reinforcing the university's mission to promote social cohesion and empowerment.

### **Northern Technical University organizes a training course entitled “Establishing a Beehive”**

Northern Technical University proudly announces the organization of a training course titled "Establishing a Beehive." Under the guidance of President Professor Dr. Alia Abbas Ali Al-Attar, the Psychological Counseling and Educational Guidance Department, in collaboration with the Aghsan Foundation for Agricultural Development, is hosting this month-long course aimed at graduates, civil society members, and employees interested in beekeeping.

The workshop features esteemed speakers, including Dr. Muhammad Salem Al-Alaf from the Agricultural Technical College and Mrs. Hind Amer Al-Obaidi, an expert in Insect Diseases with a specialization in bees.

The primary objectives of the training course are to:

- Educate participants about the benefits of honey and its significant economic importance.
- Provide insights into the care and maintenance of a beehive, along with information on essential bee products.
- Explore ways to utilize the various products derived from beehives effectively.
- Promote the concept of beekeeping within the community, encouraging wider adoption and sustainability.

This initiative embodies the university's commitment to practical education and community engagement, fostering knowledge that benefits both individuals and society as a whole.

### **Northern Technical University in the service of the community, where it organized a workshop entitled Solar Energy Systems for members of the electricity departments and the general community**

Northern Technical University in the service of the community. Under the patronage and guidance of the respected university president, Professor Dr. Alia Abbas Ali Al-Attar, to open up to civil society and serve it, the Continuing Education Center at the university presidency held a package of free training courses for members of the Northern Region Electricity Departments. The course was titled Solar Energy Systems, and was lectured by Assistant Professor Dr. Ali Nazim, a specialist in solar cell engineering.

**The President of the Northern Technical University attends an awareness seminar on breast cancer prevention and early detection.**

The President of Northern Technical University, Prof. Dr. Alia Abbas Ali Al-Attar, recently participated in an awareness seminar on breast cancer and early detection, organized by the Basma Group in collaboration with the university. This important event drew a significant turnout of women from the Mosul community, highlighting the collective commitment to raising awareness about breast cancer.

The seminar featured several distinguished doctors specializing in the field, who delivered informative lectures covering various aspects of breast cancer awareness, including the importance of regular clinical examinations and the use of specialized diagnostic equipment.

In a heartfelt conclusion to the seminar, This gesture underscored the value of collaboration in addressing critical health issues and reaffirmed the university's dedication to community service and support for women's initiatives.

The Northern University / Department of Participation, Employment and Follow-up held a **job fair in cooperation with the Indian Spark Organization**, in the sports hall of our university at exactly nine o'clock in the morning, and the invitation is open to all.

**Northern Technical University has organized a workshop titled "Sustainable Project Management"** as part of its ongoing efforts to foster collaboration between the university and government departments in Nineveh Governorate. Under the supervision of University President, Prof. Dr. Alia Abbas Ali Al-Attar, the Rehabilitation, Employment, and Follow-up Division, in cooperation with the Women's Affairs Department in the Nineveh Governorate Diwan, successfully conducted this workshop.

The workshop attracted a number of businesswomen from Mosul, focusing on several key areas:

- The application of global strategies in sustainable project management.
- Detailed guidance on developing effective business plans to ensure the success of small and medium enterprises.

Additionally, the session included a thorough review of methods for supplying projects with the necessary energy, emphasizing the use of clean energy sources. This approach not only promotes sustainability but also helps reduce operational costs.

This workshop is part of a broader series of training activities and events organized by Northern Technical University aimed at empowering the community. By enhancing the skills and knowledge of participants, the university is supporting the principles of sustainable development and equipping individuals with the tools needed for future success in their endeavors.

Northern Technical University conducted many events during every academic year.
