

Courses	Date	Departments
Methods of welding refrigeration and air conditioning system pipes with oxygen	6-10/4/2025	Department of Refrigeration & Air Conditioning Tech.
User interface of an application in MATLAB	6-10/4/2025	Department of Electricity Tech.
What is 5G technology? How dose 5G technology work?	6-10/4/2025	Department of Communication & Electronic Tech.
Comsol Program	13-17/4/2025	Division of Studying & Planning
AI Skills in Scientific Research	13-17/4/2025	Department of Medical Instrumentation
Using Sketchup in Designing Facades & Kitchens	13-17/4/2025	Department of Environment & Water Resources
AI Technologies in Learning	13-17/4/2025	Department of Networks and Software Tech.
The method of classifying books within Mosul Technical Institute	13-17/4/2025	Library Division
Water chilling systems	20-24/4/2025	Department of Refrigeration & Air Conditioning Tech.
Types of three-phase induction motors, their protection methods, and their industrial applications	20-24/4/2025	Department of Electricity Tech.
Corrosion control in gas pipelines	20-24/4/2025	Department of Chemical & Oil Industry Techniques
Digital transformation	20-24/4/2025	Department of Communication & Electronic Tech.
Chain Block and NFT technologies and their use in cryptocurrencies	27/4 – 1/5/2025	Department of Networks and Software Tech.
