

Northern Technical University

Mosul Polytechnic College

Department of Mechanical Techniques

Graduation Projects of The 2024-2025 Academic Year

No.	Project Title	Supervisor Name
1	Designing and manufacturing models for hybrid vehicle components	Dr. Emad Touma Beni
2	Studying the effect of external factors on the quality of the surface of Aluminum alloy 7075	Dr. Luqman Khalil Haider
3	Developing a testing device for woven models	Mohammed Taqi Elias Qasim
4	Effect of changing the location of the insulating material on heat transfer to a cylinder with multiple layers	Zainab Qasir Sharif
5	Testing the strength of a column made of an aluminum alloy under axial load	Eng. Iman Zaidan Ali
6	Designing and manufacturing a semi-automatic transmission	Waleed Mohammed Najm
7	Reducing vibrations in small electrical equipment	Dr. Yasser Hassan Ali
8	Designing and manufacturing a cutting and grinding device for hybrid vehicle components	Hassan Mohammed Koushi
9	Studying the mechanical properties of models made of illuminated plastic mixture	Ibrahim Khalil Ibrahim
